CHILD CARE BENEFITS: (631) 853-3666

The department provides assistance to eligible families seeking child care for children between the ages of 6 weeks through 12 years. Families must meet income and program guidelines to receive this service. Child care may be provided to enable parents to work, attend eligible educational/training programs, mental health or substance abuse treatment; provide child care due to parental illness or incapacity, or as part of a child protective or preventive case service plan. Care may be provided in licensed day care centers, before and after school programs, family day care homes, registered family day care homes, and informal child care settings.

Please note Effective July 2nd 2012 the Department will:

Continue accepting new applications for NTA Child Care services for working families; however due to state funding limitations, approvals will be limited to guaranteed populations as listed below:

- Families who have applied for or are in receipt of public assistance when such services are needed for a child under 13 years of age in order to enable the child's custodial parent or

caretaker relative to participate in activities required by a social services official including orientation, assessment, or work activities as defined in 18 NYCRR Part 385;

- Families who are in receipt of public assistance (PA) when such services are needed for a child under 13 years of age in order to enable the child's parent or caretaker relative to engage in work as defined by the social services district.
- Applicants for or recipients of public assistance who are employed and would otherwise be financially eligible for public assistance benefits that choose to receive child care subsidies for a child under 13 years of age in lieu of public assistance benefits for such period of time as the applicants/recipients continue to be financially eligible for public assistance;
- Families transitioning from public assistance whose PA cases have been closed or who voluntarily close their PA case, and who are no longer financially eligible for PA due to an increase in earned income or child support. The family must include an eligible child under the age of 13 who needs child care in order for the parent to be engaged in work, and the family's gross income must be at or below 200% of the State Income Standard. For transitional child care, the eligibility period begins with the first month in which a family becomes ineligible for PA or "child care in lieu of PA" and is limited to 12 months in duration.

In Suffolk we have taken the initiative to designate most hospitals in the county as “Safe Havens” to receive these newborns. Callers can remain anonymous, are invited to provide medical information about the infant (although it is not required), and, if the baby has not been harmed or neglected, the mother is safe from criminal prosecution.

Foster Care Services: (631) 854-9359
